DETAILED ACTION

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance:

The claimed invention is a structure of an image sensor, comprising:

- At least one photodiode region formed in a semiconductor substrate; and
- At least one transistor, where the photodiode region comprises:
 - A p-type region extending to a surface of the semiconductor substrate; and
 - An n well region formed in said p-type region, where the n well region comprises a bar portion and a plurality of parallel finger portions extending from the bar portion, and the bar portion is electrically connected to the transistor via a connection.

The prior art of record does not disclose or suggest either in singly or in combination the following limitations and other elements in the claims:

- Reference Maloney (US 6,323,985) do not disclose the n well region comprises a bar portion and a plurality of parallel finger portions extending from the bar portion, and the bar portion is electrically connected to the transistor via a connection.
- Reference Merrill et al. (US 6,150,683) do not disclose the n well region comprises a bar portion and a plurality of parallel finger portions extending from

the bar portion, and the bar portion is electrically connected to the transistor via a connection.

Therefore, the above references do not disclose the claimed invention of present application and claims 1-16 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Wai-Sing Louie whose telephone number is (571) 272-1709. The examiner can normally be reached on 7:30 AM to 4:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Wael Fahmy can be reached on (571) 272-1705. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
